

Buyer TIN

Buyer TIN is the official TIN of the buyer, as registered in the official business registry of each country. Buyer TIN mandatory only for B2B transactions and in that case, it must be printed on the fiscal invoice. It uniquely identifies the buyer of the product(s)/service(s) that are listed on the invoice.

When issuing a B2B fiscal invoice for exported goods/services (i.e. when goods/services are sold to a buyer from a foreign country), the cashier **must enter a Buyer TIN which starts with an official country code prefix**.

Country code prefix is an **ISO 3166-1 alpha-2 (2 letters) country code**. It identifies the buyer's country of origin.

NOTE:
ISO 3166-1 alpha-2 codes are two-letter country codes defined in ISO 3166-1, part of the ISO 3166 standard published by the International Organization for Standardization (ISO).
