

Printing

Questions in this chapter refer to the supported sizes for printing invoices.

There are three specific options:

- **Invoice (slip) size** - you must provide reference to your user manual
- **A4 size** - you must provide reference to your user manual
- **Specific country / region size** - you must state the actual size in the box

In addition, there is the option **Other** in case your supported printing size does not fit any of those categories.

NOTE:

You can select more than one option.

Initially, all options are marked as mandatory (red color).

The screenshot shows a form with four sections, each with a red header bar indicating a mandatory option. Each section includes a checkbox for 'Yes', a text input field, and a 'Comments' counter.

- 1. Invoice (slip) size**
 Yes
