

# Technical Part

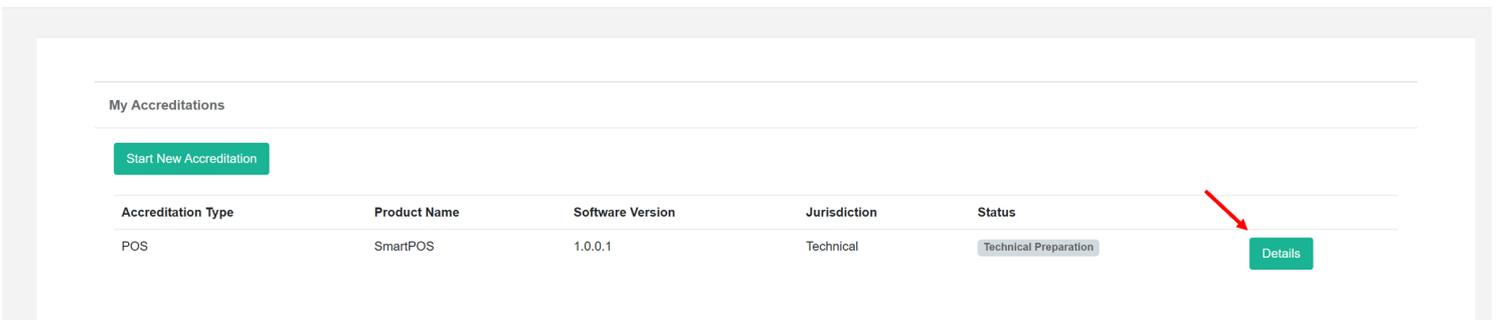

To begin the technical part of a POS accreditation, [log in to the Developer Portal](#) and open the *My Accreditations* page.

## Starting the technical part

Find the product you wish to accredit and click on **Details**.

Developer Portal

Overview / Resources / Dev ESDC / My Accreditations

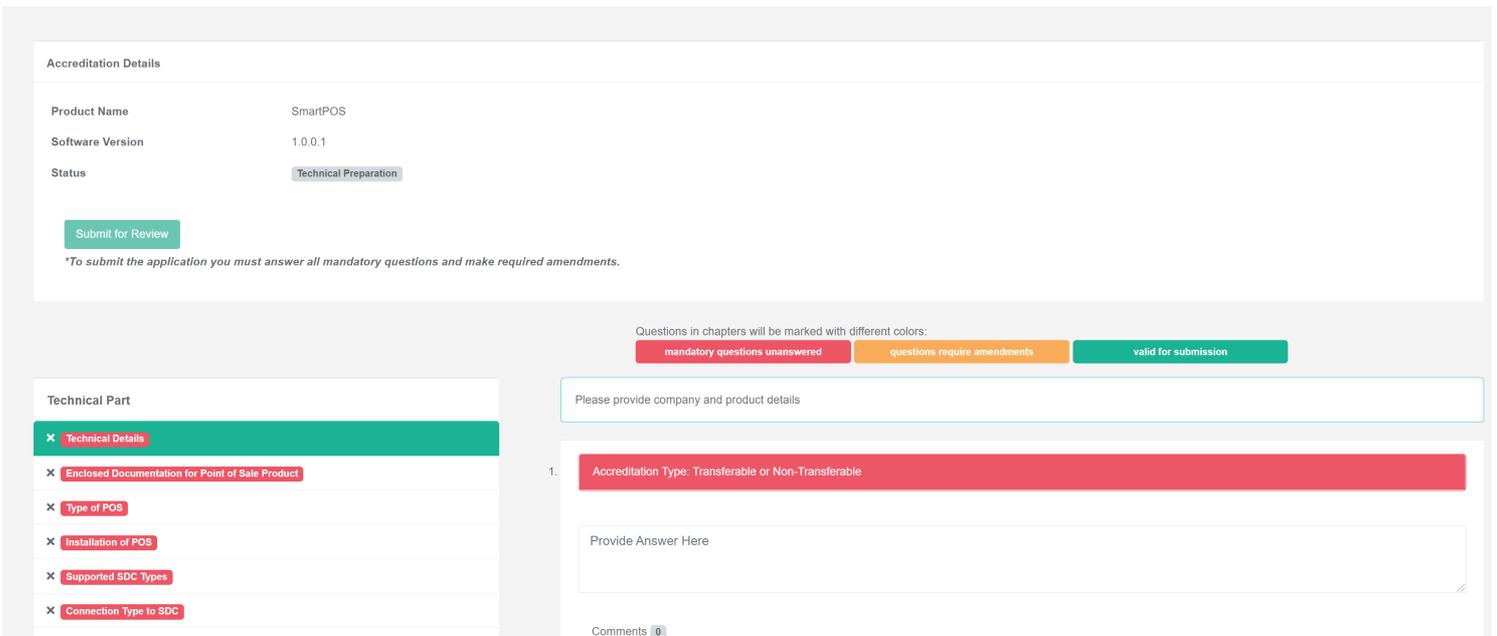

*Technical Part - Image of the Details option for accreditation (POS)*

A new page will open, displaying all questions you need to answer before you can submit your application.

Overview / Resources / Dev ESDC / My Accreditations

*Technical Part - Image of the questions to answer view before submitting an application (POS)*

## Page design

The top of the page contains an information box with basic information about your accreditation. There is a button for submitting the technical part of your application for review.

**NOTE:**  
The **Submit for Review** button is not clickable until you answer all mandatory questions (marked by red).

Accreditation Details

Product Name SmartPOS

Software Version 1.0.0.1

Status Technical Preparation

[Submit for Review](#)

\*To submit the application you must answer all mandatory questions and make required amendments.

*Technical Part - Image of the Accreditation Details and the submit for review button (POS)*

Questions are divided into chapters. The chapters are displayed on the left side, while on the right side you can see the questions from the selected chapter.

Questions in chapters will be marked with different colors:

- mandatory questions unanswered
- questions require amendments
- valid for submission

Please provide company and product details

1. Accreditation Type: Transferable or Non-Transferable

[Save](#) \*Changes are automatically saved when you navigate between question chapters even if you don't click the Save button.

*Technical Part - Image of the questions divided by chapters (POS)*

## Saving your answers

When you finish answering the questions from one chapter, you can save your answers by clicking **Save** at the bottom of the page.

**NOTE:**  
If you proceed to the next chapter, navigate to another Developer Portal page, or log off before clicking **Save**, changes you made on that page will still be saved automatically.

## Color explanation

Developer Portal uses colors to mark chapters and questions that are mandatory or require applicants' attention:

- Chapters/questions marked by **RED** color are mandatory, i.e. they have to be answered
- Chapters/questions marked by **ORANGE** color require amendments from the applicant. They receive this color when an application reviewer requires additional information from the applicant or a change of the provided information. These questions are usually followed by the reviewer's comment.
- Chapters/questions marked by **GREEN** color are ok, and they can be submitted.

### NOTE:

When a chapter/question doesn't have any color, it means that it is not mandatory.

There is a color interpretation line above the questions that you can use to remind yourself about the colors' meanings.

Questions in chapters will be marked with different colors:

mandatory questions unanswered

questions require amendments

valid for submission

Technical Part - Image of the color interpretation line (POS)

## Submitting Technical Part for review

Only when you answer all the mandatory questions, the **Submit for Review** button will become active.

Accreditation Details

Product Name SmartPOS

Software Version 1.0.0.1

Status Technical Preparation

[Submit for Review](#)

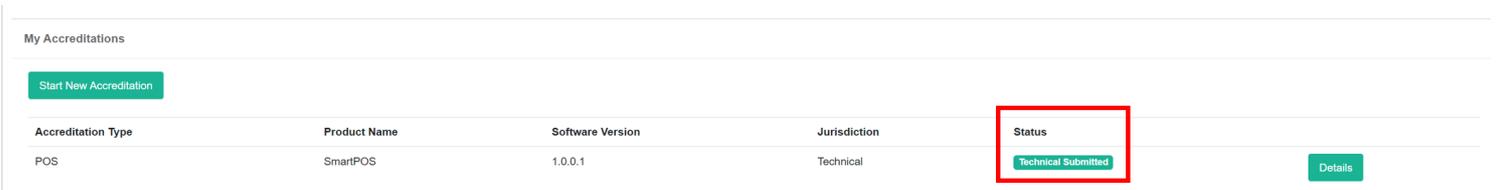

Questions in chapters will be marked with different colors:

- mandatory questions unanswered
- questions require amendments
- valid for submission

*Technical Part - Image of the Submit for Review button (POS)*

When you click on it, the technical part of your application for accreditation will be sent for review.

The status of that application will automatically change to **Technical Submitted**.

*Technical Part - Image of My Accreditations statuses (POS)*

## NOTE:

Even when you submit your answers for review, you are still able to make changes to any of them until the tax authority reviewer begins reviewing your answers. When the status of your application changes to **Under Technical Test**, the answer boxes become locked and you can not change your answers anymore (unless you receive an official request from reviewers to make amendments).

## Making amendments to your answers

During the official review of your answers, a tax authority reviewer might notice that something is missing in your answer(s) or that some information in your answer(s) needs to be amended. The reviewer will then mark that answer and leave a comment for you explaining what needs to be amended.

When this happens, you will receive an email notification.

Dear Gilmore Stan,

Your application for POS accreditation for SmartPOS, version 1.0.0.1, was reviewed on 24 June 2021 and requires amendments.

Please log in to the [Developer Portal](#) to make the required amendments.

Kind Regards,

*Technical Part - Image of the email amendments notification (POS)*

Also, you can notice that the status of your application has changed to **Technical Amendments Required**.

Accreditation Type	Product Name	Software Version	Jurisdiction	Status	
POS	SmartPOS	1.0.0.1	Technical	Technical Amendment Required	<a href="#">Details</a>

*Technical Part - Image of the Technical Amendments Required status change (POS)*

To make the required amendment(s), log in to the **Developer Portal** and open the accreditation from **My Accreditations** list.

The chapter(s) which contains the answer(s) requiring amendments will clearly be marked by orange color.

*Technical Part - Image of the answers containing required amendments divided by color (POS)*

Find the answer(s) and click on the number next to **Comments** to see the reviewer's comments.

*Technical Part - Image of the Comments section (POS)*

Read the reviewer's comments carefully to know which amendment you need to make. If you need more clarification from the reviewer, you can click **Add comment** and write your comment in the box. Click **Add** to save your comment.

## Completing the Technical Part

When all your answers pass the technical review successfully, you will receive an email notification.

Dear Gilmore Stan,

Your POS product SmartPOS, version 1.0.0.1, has successfully passed the Technical Review of the POS accreditation process.

The next step is to complete the Administrative Review process.

To begin the Administrative Review, please log in to the [Developer Portal](#) and select the jurisdiction(s) for which you wish to accredit your product.

If you have questions or need any help, please email our support service: [taxcore.support@dti.rs](mailto:taxcore.support@dti.rs)

Kind Regards,

*Technical Part - Image of the email notification for a technical successful review (POS)*

You can also notice that the status of your application has changed to **Technical Approved**.
