

Visual Verification

In this chapter, you need to confirm that your product has visible or easily accessible information about Manufacturer, Serial Number, Software and Hardware version.

You need to **answer just one question**, depending on whether your E-SDC is software or hardware based.

1.

In case E-SDC is **hardware** based, it must have visible markings indicated on the device displaying Manufacturer, Serial Number, Software and Hardware version (rating label)

☒ Yes

User manual, chapter 1

0

2.

In case E-SDC is **software** based, it must have easily accessible information about Manufacturer, Serial Number and Software version

☐ Yes
